

Warning :

If you are looking a way to earn money without doing work then you will be disappointed after reading this. But, if you are looking for a genuine method to work and earn then this is for you.

Note: The prices mentioned are in INR (Indian Rupees). This is to give you an understanding of the income potential. Obviously, this will vary according to various countries. So, you can do your own calculations after understanding the method.

Attention : Below you will find the method and income potential. You can earn good income by starting with just Rs 3000. So, read this till the end to know the details.

Also, if you are looking for a completely free method then you may quit now.

So, as you are still reading, we assume that you understand that this is a real income and business chance and requires little investment which you are ready to make.

Phones are used by people everywhere. And apps are important part of phone today. So, here is the income making chance for you.

People spend a lot of time on phone and also they are ready to try new things. If the app is related to them, useful and beneficial for them, then they will download it. Your app will become the one-stop solution for lot of useful information.

Following are some of the sections you can keep in the app.

1. Offers/Discounts right now (Promotion)
2. Announcement
3. For Sale (goods)
4. For Rent – House
5. For Sale - House/Land
6. About You – you can include brief description about you and why you started this app etc.

As there is huge demand you can make good money by following the plan. Imagine your app will be installed in hundreds and thousands of phones.

People will get lots of benefit from the app.

You will be able to make good money (We will discuss that in the next section).

You must be eager to see the earning potential, but before that let us mention that the app is very easy to manage. If you have basic computer skills, then you can easily manage the app.

Now, let's see the earning potential.

As mentioned earlier, there are various sections in the app. There are some free sections and some paid sections. Combination of these will help you get downloads as well as generate money.

Following are the methods using which you can generate money.

1. Promotion

People do various types of promotion. Just see the newspaper and you will find leaflets inside. You can see various promotions in walls, banners, hoardings etc. They spend money in all these but are not able to reach maximum people.

Your app will be installed in maximum phones. So, if they pay you, then you can easily add their promotions in the app and they will benefit a lot. Their printing and distributing cost will be saved and they can reach more number of people faster.

Example - If you charge Rs 2,000 per promotion and you get 4 promotions daily, then you can earn

$\text{Rs } 2,000 \times 4 \times 30 \text{ days} = \text{Rs } 2,40,000 \text{ per month.}$

You can also keep monthly cost to make it more affordable and cheaper.

Suppose you charge Rs 15,000 per promotion and you get 20 clients/month, then you can make

$\text{Rs } 15,000 \times 20 = \text{Rs } 3,00,000 \text{ per month.}$

Now a task for you:

Find out the cost of printing 1000/5000 leaflets. You will realize how cost-effective it will be when they promote in app. It can reach thousands of people quickly and at lower cost. So, people will be happy to pay you.

When your app gets more popular and receives more download, then you can charge double or triple the amount shown above.

2. Announcement

You can keep this section for birthday, anniversaries etc. People can pay you to post their photo and message in the app. Common people will love to see their photo in a popular app and will get lot of wishes from people.

Example - Suppose you charge Rs 500 per post and you get 4 posts/day, then you can earn

$\text{Rs } 500 \times 4 \times 30 \text{ days} = \text{Rs } 60,000 \text{ per month.}$

As your app gets popular you will get more and more requests for posting. So, this can be a good source of income.

3. Listing house for rent and house/land for sale

This can be a big source of revenue for you.

Do a bit of research and you can find the amount of money brokers earn.

You can charge a suitable listing fee for listing house for rent and house/land for sale. House or land owners, brokers or builders can pay you to list their property.

Do your calculations and you will find that you can make a good amount per month with this method.

Listing fee will depend on the area of real estate. So, we are not doing any sample calculations here.

As your app gets popular, more and more people will be interested to list their properties. So, this can be a major source of revenue for you.

It is the perfect time for you to start now. You will not only get income but will also get popularity. When you provide good and useful content in the app, it will gain popularity. Every phone users will like to have your app installed to get the benefits.

During these difficult times when most businesses are impacted, you can help them by getting more customers. You can help people by giving them good offers and a lot of other useful features and promotions.

Inside the member's area, we have discussed various ideas on how to make the app more popular and get more downloads.
